To guarantee an appropriate assessment process, the disciplinary procedure administrated by the disciplinary bodies (Disciplinary Committee and Appeals Committee) of FSF will apply for infringements against the criteria referred to in Article 16(2), 16bis(2) and against all other violations of these regulations (e.g. submission of falsified documents, non-respect of deadlines, sanctions against individuals, etc.).

The FSF Disciplinary Regulations will be used as legal basis for sanctions (the possible sanctions are listed in Article 53 of the FSF Statutes).

2. Where a criterion referred to in Article 16(2) and 16bis(2) is not fulfilled, the licensing manager sends an official warning to the violating club, indicating a deadline within which the criterion must be fulfilled. Where, upon expiry of the deadline, the club has still not rectified the situation, the licensing manager refers the club to the *FSF Disciplinary Committee* which decides on possible sanction(s) against the violating club.

Article 9 – The core process

1. FSF defines the core process in Annex VII for the verification of the club licensing criteria and thus controls the issuance of the UEFA Licence.
2. The core process starts when the licensing manager distributes the licensing documentation to the licence applicants and ends on submission of the list of licensing decisions to the UEFA administration by the deadline communicated by the UEFA administration.
3. The core process consists of the following minimum key steps:

Article 10 – Assessment procedures

The assessment procedures are defined by the licensor. Those used to verify compliance with the financial criteria are defined in Annex V.

Article 11 – Equal treatment and confidentiality

1. The licensor ensures equal treatment between all licence applicants during the core process.
2. The licensor guarantees the licence applicants full confidentiality regarding all information submitted during the licensing process. Anyone involved in the licensing process, or appointed by the licensor to undertake such work, must sign a written confidentiality clause before assuming his tasks.

2. The membership of FSF and the contractual relationship (if any) must have lasted – at the start of the licence season – for at least three consecutive years.

3. Any change to the legal form, legal group structure (including a merger with another entity or transfer of football activities to another entity) or identity (including headquarters, name or colours,) of a licence applicant during this period to the detriment of the integrity of a competition or to facilitate the licence applicant's qualification for a competition on sporting merit or its receipt of a licence is deemed as an interruption of membership or contractual relationship (if any) within the meaning of this provision.

2. *Reserve clubs*

The two clubs in the top domestic Faroese Championship for men which are placed after the mentioned clubs in paragraph 1 will be given the opportunity to apply for

the UEFA Licence and then, provided that they fulfill the criteria for the UEFA Licence, will obtain the status of reserve clubs.

If a club mentioned under paragraph 1 fails to obtain the UEFA Licence, then the highest placed reserve club will enter in its place and replace this club in the UEFA club competitions and if the two clubs mentioned under paragraph 1 fail to obtain the UEFA Licence, then both reserve clubs will enter in their place and replace these clubs in the UEFA club competitions.

3. The UEFA Licence expires without prior notice at the end of the season for which it was issued.
4. The UEFA Licence cannot be transferred.

If a club qualifies for a UEFA club competition on sporting merit but has not undergone any licensing process at all or has undergone a licensing process which is lesser/not equivalent to the one applicable to the UEFA Licence under these regulations, because it belongs to a division other than the top division, the licensor may – on behalf of such a club – request an extraordinary application of the club licensing system in accordance with Article 15 and Annex IV of the *UEFA Club Licensing and Financial Fair Play Regulations (Edition 2018)*.
2. Based on such an extraordinary application, UEFA may grant special permission to the club to enter the corresponding UEFA club competition subject to the relevant UEFA club competition regulations. Such an extraordinary application applies only to the specific club and for the season in question.

 - b) be submitted to the licensor together with the annual financial statements to form a basis for the licensing decision.
2. The auditor must, as a minimum, review the interim financial statements. The auditor's report must:
 - a) include a statement confirming that the review was conducted in accordance with either the International Standard on Review Engagements (ISRE) 2410, 'Review of Interim Financial Information Performed by the Independent Auditor of the Entity', or relevant national standards or practices for such reviews where these comply with, as a minimum, the requirements of ISRE 2410; and
 - b) be submitted to the licensor together with the interim financial statements to form a basis for the licensing decision.

3. The auditor must assess supplementary information, if any. The auditor's report of factual findings must:
 - a) include a statement confirming that the assessment was conducted by way of agreed-upon procedures according to the International Standard on Related Services (ISRS) 4400 or relevant national standards or practices where these comply with, as a minimum, the requirements of ISRS 4400; and
 - b) be submitted to the licensor together with the supplementary information to form a basis for the licensing decision.

4. Financial information other than that defined in paragraphs 1 to 3 above may be assessed by an auditor. In this case, the auditor's report must:
 - a) include a statement confirming that the assessment was conducted either:
 - i. by way of agreed-upon procedures according to the International Standard on Related Services (ISRS) 4400 or relevant national standards or practices where these comply with, as a minimum, the requirements of ISRS 4400; or
 - ii. for the assessment of future financial information (if applicable), according to the International Standards for Assurance Engagements (ISAE) 3400 or relevant national standards or practices where these comply with, as a minimum, the requirements of ISAE 3400; and
 - b) be submitted to the licensor together with the relevant documentation to form a basis for the licensing decision.

h) *Issued capital and reserves*

Share capital, other reserves and retained earnings must be disclosed separately.

This information must be disclosed irrespective of whether any transactions have taken place between the controlling parties and the reporting entity.

j) *Related party transactions*

If there have been transactions between related parties during the periods covered by the financial statements, the reporting entity must disclose the nature of the related party relationship, as well as information about those transactions and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements. Items of a similar nature may be disclosed in aggregate except when separate disclosure is necessary for an understanding of the effects of related party transactions on the financial statements of the reporting entity.

As a minimum, disclosures must include for each related party:

- i) the amount and the nature of the transactions;
- ii) the amount of outstanding balances, including commitments, and:
 - their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and
 - details of any guarantees given or received;
- iii) provisions for doubtful debts related to the amount of outstanding balances; and
- iv) the expense recognised during the period in respect of bad or doubtful debts due from related parties.

The disclosures required must be made separately for each of the following categories:

- the parent;
- entities with joint control or significant influence over the reporting entity;
- subsidiaries;
- associates;
- joint ventures in which the reporting entity is a venturer;
- key management personnel of the entity or its parent; and
- other related parties.

Confirmation that related party transactions were made on terms equivalent to those that prevail in arm's length transactions must be made if such terms can be substantiated.

k) *Contingent liabilities*

Unless the possibility of any outflow in settlement is remote, the reporting entity must disclose for each class of contingent liability at the statutory closing date a brief description of the nature of the contingent liability and, where practicable:

- i) an estimate of its financial effect;
- ii) an indication of the uncertainties relating to the amount or timing of any outflow; and
- iii) the possibility of any reimbursement.

l) *Events after the balance sheet date*

Material non-adjusting events after the balance sheet date must be disclosed (the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made). Examples of such events are:

- i) fixed-term borrowing approaching maturity without realistic prospects of renewal or repayment;
- ii) substantial operating losses;
- iii) discovery of material fraud or errors that show the financial statements are incorrect;
- iv) management determining that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so;

- vi) transactions relating to property – for example, in relation to the club's stadium.

m) *Other disclosures*

i) *Agents/intermediaries fees*

The total amount paid in the reporting period to or for the benefit of agents/intermediaries must be disclosed.

ii) *Players' economic rights (or similar)*

For any player for whom the economic rights or similar are not fully owned by the licence applicant, the name of the player and the percentage of economic rights or similar held by the licence applicant at the beginning of the period (or on acquisition of the registration) and at the end of the period must be disclosed.

iii) *Tax expense*

The components of tax expense must be disclosed separately. That is, the aggregate amount included in the determination of net profit or loss for the reporting period in respect of current and/or deferred tax.

iv) *Miscellaneous*

Any additional information or disclosure that is not presented on the face of the balance sheet, profit and loss account or cash flow statement, but is relevant to an understanding of any of those statements and/or is required to meet the minimum financial information requirements, must be disclosed.

2. Notes to the interim financial statements consist as a minimum, of:

- a) a statement that the same accounting policies and methods of computation are followed in the interim financial statements as compared with the most recent annual financial statements or, if those policies or methods have been changed, a description of the nature and effect of the change; and
- b) disclosure of any events or transactions that are material to an understanding of the current interim period.

F. Player identification table

1. All licence applicants must prepare and submit to the licensor a player identification table.
2. The player identification table must be provided to the auditor, who must reconcile the aggregate figures in the player identification table to the relevant figures in the balance sheet and profit and loss account in the audited annual financial statements. However, the player identification table does not need to be disclosed within the annual financial statements.
3. The minimum information to be included in the player identification table in respect of each relevant player is as follows:
 - a) Name and date of birth;
 - b) Start date of original player contract and end date of current contract;
 - c) Costs of acquiring the player's registration;
 - d) Accumulated amortisation brought forward and as at the end of the period;
 - e) Expense/amortisation in the period;
 - f) Impairment cost in the period;
 - g) Disposals (cost and accumulated amortisation);
 - h) Net book value (carrying amount);
 - i) Profit/(loss) from disposal of player's registration; and
 - j) Sell-on rights (or similar), i.e. description and (if possible) quantification of any sell-on rights to a football club that formerly held the player's registration, excluding training compensation and/or solidarity contributions.
4. Relevant players, about whom details are required in the table, are:

- a) all players whose registration is held by the licence applicant at any time during the period and in respect of whom some direct acquisition cost has been incurred (at some point in time in the reporting period or prior periods); and
 - b) all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period).
5. For licence applicants who have restated player accounting figures to meet the accounting requirements of these regulations, these aggregate figures from the player identification table must agree with/be reconciled to the restated figures in the supplementary information.

G. Financial review by management

1. The annual financial statements must include a financial review or commentary by management (sometimes referred to as a directors' report) that describes and explains the main features of the reporting entity's financial performance and financial position and the principal risks and uncertainties it faces.
2. The annual financial statements must also include the names of persons who were members of the executive body, or board of directors, and of the supervisory bodies of the reporting entity at any time during the year.

Annex III: Basis for the preparation of financial statements

A. Principles

1. Financial statements as defined in Articles 47 and 48 must be based on the accounting standards required by Faroese legislation for incorporated companies – regardless of the legal structure of the licence applicant.
2. Financial statements must be prepared on the assumption that the licence applicant is a going concern, meaning it will continue in operation for the foreseeable future. It is assumed that the licence applicant has neither the intention nor the necessity to go into liquidation, cease trading or seek protection from creditors pursuant to laws or regulations.
3. The financial reporting framework, suitable as the basis for the preparation of financial statements, must contain certain underlying principles including:
 - a) fair presentation;
 - b) consistency of presentation;
 - c) accrual basis for accounting;
 - d) separate presentation of each material class of items;
 - e) no offsetting of assets and liabilities or income and expenses.
4. Notwithstanding that each licence applicant has to prepare audited annual financial statements under its own national accounting practice for incorporated companies, the International Financial Reporting Standards or the International Financial Reporting Standard for Small and Medium-sized Entities, these regulations include specific accounting requirements to be complied with as set out in Annex III, B to F.
5. The licence applicant must prepare supplementary information (to be submitted to the licensor) if the accounting requirements described in this annex are not met by the disclosures and accounting treatment in the audited annual financial statements. The supplementary information must include a restated balance sheet, profit and loss account and any associated notes to meet the requirements set out below. There must also be included a note (or notes) reconciling the results and financial position shown in the supplementary information document to those shown in the audited financial

statements (that were prepared under the national accounting practice). The restated financial information must be assessed by the auditor by way of agreed-upon procedures.

6. The financial statements must be approved by management and this must be evidenced by way of a brief statement and signature on behalf of the executive body of the reporting entity.

B. Consolidation/combination requirements

1. The financial information of all entities included in the reporting perimeter (as defined in Article 46bis) must be either consolidated or combined as if they were a single company.
2. Consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single company.
3. Combined financial statements are those that include information about two or more commonly controlled entities without information about the controlling entity.

C. Accounting requirements for the permanent transfer of a player's registration

1. Licence applicants that capitalise the costs of acquiring a player's registration as an intangible asset must apply certain minimum accounting requirements as described in paragraph 3 of this part C.
2. If a licence applicant has an accounting policy to expense the costs of acquiring a player's registration rather than capitalise them as an intangible asset, and this is permitted under the faroese accounting practice, it must apply the minimum accounting requirements set out below.
3. The minimum accounting requirements for licence applicants that capitalise the costs of acquiring a player's registration as an intangible asset are as follows:
 - a) The acquisition of a player's registration must be recognised in the financial

statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional, which means that there must be a legally binding agreement between the two clubs and between the acquiring club and the player.

- b) Only direct costs of acquiring a player's registration can be capitalised. For accounting purposes, the carrying value of an individual player must not be revalued upwards, even though management may believe market value is higher than carrying value. In addition, whilst it is acknowledged that a licence applicant may be able to generate some value from the use and/or transfer of locally trained players, for accounting purposes costs relating to an applicant's own youth sector must not be included in the balance sheet – as only the cost of players purchased is to be capitalised. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefits expenses and not costs of acquiring a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of acquiring a player's registration even if the borrowings were obtained to help finance the acquisition of player registrations.
- c) Amortisation must begin when the player's registration is acquired. Amortisation ceases when the asset is fully amortised or derecognised (i.e. the registration is considered as being permanently transferred to another club), whichever comes first.
- d) In respect of each individual player's registration, the depreciable amount must be allocated on a systematic basis over its useful life. This is achieved by the systematic allocation of the cost of the asset as an expense over the period of the player's contract. If the period of a player's contract with the club is extended, then the intangible asset carrying value of the player's registration plus any additional directly attributable contract negotiation costs (e.g. agent/intermediary fees) are to be amortised over the extended period of the player's contract or over the remaining period of the original contract.
- e) All capitalised player values must be reviewed each year by management for impairment. If the recoverable amount for an individual player is lower than the carrying amount on the balance sheet, the carrying amount must be adjusted to the recoverable amount and the adjustment charged to the profit and loss account

as an impairment cost. The licensor requires each of its licence applicants to apply consistent accounting policies in respect of player registration costs.

In exceptional circumstances when it becomes clear by the statutory closing date that:

- i. a player will not be able to play again with the club, for example if he suffers a career-threatening injury or he is permanently unable to play professional football, then the net book value of the player's registration on the balance sheet must be fully impaired in that reporting period. The following events do not represent a cause for recognising impairment loss:

- A player suffers an injury in a reporting period and is temporarily unable to play professional football with the club, or
- A player suffers a decline in fitness or ability and is not selected for participation in first team matches.

In this regard, future wages of players suffering from a career-threatening injury or he is permanently unable to play professional football must continue to be recognised as employee benefits expenses throughout the duration of the player's contract.

- ii. the management of the club is committed to permanently transfer the registration of a player and the transfer occurs just after the statutory closing date, then the net book value of the player's registration on the balance sheet can be impaired if the disposal proceeds for the permanent transfer of the player's registration to the new club is lower than his net book value. The accounting principle must be disclosed in the financial statements and must be applied consistently from one accounting period to another.
- f) The profit/(loss) on the disposal of a player's registration to another club to be recognised in the profit and loss account is the difference between the disposal proceeds (net of any sales costs) and the residual carrying value of the player's registration in the balance sheet as at the date of the transfer. The disposal of a player's registration must be recognised in the licence applicant's financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional and the risks and rewards have been transferred to the new club.

D. Accounting requirements for the temporary transfer of a player's registration

1. The minimum accounting requirements for licence applicants that have transactions in respect of the temporary transfer of a player's registration (loan) are as follows:
2. Loan fees received/paid must be reported as player transfer income/expense.
3. Loan of a player from the lender club to the new club with no obligation/option to buy
 - a) The loan fees received/receivable by the lender club, if any, must be recognised as income over the period of the loan arrangement. The lender club will continue to recognise the original costs of acquiring the player's registration as an intangible asset on its balance sheet and to allocate systematically the cost of the asset as an amortisation expense over the period of the player's contract.
 - b) The loan fees paid/payable by the new club, if any, must be recognised as an expense over the period of the loan arrangement. If the player's salary is taken over by the new club, it must be recognised as an employee benefits expense over the player's loan term.
4. Loan of a player from the lender club to the new club with an unconditional obligation to buy
 - a) The loan must be reflected by the lender club as a permanent transfer and the player's registration rights must be derecognised from its intangible assets. The proceeds from the loan and from the future permanent transfer must be recognised from the inception of the loan agreement.
 - b) The direct costs of the loan and the future permanent transfer for the new club must be recognised by the new club in accordance with the accounting requirements for permanent acquisition of a player's registration.
5. Loan of a player from the lender club to the new club with an option to buy
 - a) The transaction must be recorded as a loan by the lender club until the option is exercised by the new club. When the option is exercised, any remaining proceeds of the loan and proceeds of the future permanent transfer must be recognised in accordance with the accounting requirements for the permanent disposal of player's registration.

- b) When the option is exercised by the new club, any remaining costs of the loan and the costs of the future permanent transfer must be recognised by the new club in accordance with the accounting requirements for the permanent acquisition of a player's registration.
6. Loan of a player from the lender club to the new club with a conditional obligation to buy
 - a) If a condition is considered to be virtually certain, then the player's registration must be recognised by both clubs as a permanent transfer from the inception of the loan agreement.
 - b) If the fulfilment of a condition cannot be assessed with sufficient certainty to trigger the permanent transfer from the inception of the loan, then the player's registration must be recognised first as a loan and then as a permanent transfer once the condition is met.

E. Accounting requirements for specific expense items

1. Incentive/bonus expenses for employees
 - a) All forms of consideration given by an entity in exchange for service rendered by an employee, including any bonuses and incentives such as performance-related consideration, contract signing fees, and loyalty incentives, must be reported as employee benefits expenses.
 - b) Bonus and/or incentive payments that are payable in full by the club to a person with no further condition or service obligation (i.e. the club has no choice but to make the payments) must be recognised as employee benefits expenses when triggered.
 - c) Bonus and/or incentive payments that are dependant on a certain future condition being satisfied by the player and/or the club, such as a player's participation in matches and/or the club's competition performance, must be recognised as employee benefits expenses at the point in time when the condition has been satisfied or its fulfilment becomes highly probable.
 - d) Incentive and/or bonus to players when entering and/or extending an employment agreement with any condition or service obligation must be recognised on a systematic basis over the relevant period.
2. Termination benefits to employees

A club must recognise in full the expense of termination benefits to an employee when the club can no longer withdraw the offer of those benefits.

F. Accounting requirements for specific revenue items

1. Season tickets and similar revenues

Revenue in respect of season ticket sales or similar match-related sales must be recognised on a proportionate basis at the point in time when the relevant matches take place during the season.

2. Broadcasting and/or prize money revenues

a) Revenue in respect of broadcasting rights and/or other consideration for participation in a competition which are fixed considerations must be recognised on a proportionate basis at the point in time when the relevant matches take place during the season.

b) Revenue in respect of broadcasting rights and/or consideration for participation in a competition which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

3. Sponsorship and commercial revenues

a) Revenue in respect of sponsorship rights which are fixed considerations must be recognised on a proportionate basis over the period covered by the sponsorship contract.

b) Revenue in respect of sponsorship rights which are variable considerations dependent on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

c) Any non-cash consideration as part of a sponsorship contract must be measured at fair value.

4. Donations and grants

a) A donation is an unconditional gift of consideration that must be recognised as other operating income when received.

b) Grants must not be recognised in the accounts of the club until there is

reasonable assurance that the club will comply with the conditions to receive the grant and the grant will be received. Then, a grant must be recognised in profit and loss on a systematic basis over the reporting periods in which the club recognises as expenses the related costs for which the grants were intended to compensate. Therefore, grants in respect of specific expenses are recognised in profit and loss in the same reporting period(s) as the relevant expenses. Similarly, grants related to depreciable assets are recognised in profit and loss over the reporting periods and in the proportions in which depreciation expenses on those assets is recognised. A grant that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support with no future related costs must be recognised in profit or loss in the in which it becomes receivable.

Annex IV: Notion of 'overdue payables'

1. Payables are considered as overdue if they are not paid according to the contractual or legal terms.

2. Payables are not considered as overdue, within the meaning of these regulations, if the licence applicant (i.e. debtor club) is able to prove by 31 March (in respect of Articles 49, 50 and 50bis) respectively that:
 - a) it has paid the relevant amount in full; or

 - b) it has concluded an agreement which has been accepted in writing by the creditor to extend the deadline for payment beyond the applicable deadline (note: the fact that a creditor may not have requested payment of an amount does not constitute an extension of the deadline); or

 - c) it has brought a legal claim which has been deemed admissible by the competent authority under faroese law or has opened proceedings with the faroese or international football authorities or relevant arbitration tribunal contesting liability in relation to the overdue payables; however, if the club licensing decision-making bodies consider that such claim has been brought or such proceedings have been opened for the sole purpose of avoiding the applicable deadlines set out in these regulations (i.e. in order to buy time), the relevant amount will still be considered as an overdue payable; or

 - d) it has contested to the competent authority under faroese law, the faroese or international football authorities or the relevant arbitration tribunal, a claim which has been brought or proceedings which have been opened against it by a creditor in respect of overdue payables and is able to demonstrate to the reasonable satisfaction of the club licensing decision-making bodies that it has established reasons for contesting the claim or proceedings which have been opened; however, if the club licensing decision-making bodies consider the reasons for contesting the claim or proceedings which have been opened as manifestly unfounded, the amount will still be considered as an overdue payable; or

 - e) it is able to demonstrate to the reasonable satisfaction of the club licensing

decision-making bodies that it has taken all reasonable measures to identify and pay the creditor club(s) in respect of training compensation and solidarity contributions (as defined in the *FIFA Regulations on the Status and Transfer of Players*).

Annex V: Licensor's assessment procedures

A. Principle

The licensor defines the assessment procedures, ensuring equal treatment of all clubs applying for a licence. It assesses the documentation submitted by the clubs, considers whether this is appropriate and determines to its reasonable satisfaction whether each criterion has been met and what further information, if any, is needed for each licence to be granted.

The assessment processes to check compliance with the financial criteria set out in Article 10 comprise specific assessment steps that must be followed by the licensor as set out below.

B. Assessment of the auditor's report on the annual and interim financial statements

1. In respect of the annual and interim financial statements, the licensor must perform the following minimum assessment procedures:
 - a) Assess whether the reporting perimeter is appropriate for club licensing purposes.
 - b) Assess the information (annual and interim financial statements that may also include supplementary information) submitted to form a basis for its licensing decision.
 - c) Read and consider the annual and interim financial statements and the auditor's report thereon.
 - d) Address the consequences of any modifications to the auditor's report (compared to the normal form of unqualified report) and/or deficiencies compared to the minimum disclosure and accounting requirements according to paragraph 2 below.
2. Having assessed the reporting perimeter and read the auditor's report on the annual and interim financial statements, the licensor must assess these according to the items below:
 - a) If the reporting perimeter does not meet the requirements of Article 46bis, the UEFA

Licence must be refused.

- b) If the auditor's report has an unqualified opinion, without any modification, this provides a satisfactory basis for granting the UEFA Licence.
 - c) If the auditor's report has a disclaimer of opinion or an adverse opinion, the UEFA Licence must be refused, unless a subsequent audit opinion without disclaimer of opinion or adverse opinion is provided (in relation to another set of financial statements for the same financial year that meet the minimum requirements) and the licensor is satisfied with the subsequent audit opinion.
 - d) If the auditor's report has, in respect of going concern, either a key audit matter or a qualified 'except for' opinion, the UEFA Licence must be refused, unless either:
 - i. a subsequent audit opinion without going concern key audit matters or qualification is provided, in relation to the same financial year; or
 - ii. additional documentary evidence demonstrating the licence applicant's ability to continue as a going concern until at least the end of the licence season has been provided to, and assessed by, the licensor to its satisfaction. The additional documentary evidence includes, but is not necessarily limited to, the information described in Article 52 (Future financial information).
 - e) If the auditor's report has, in respect of a matter other than going concern, either a key audit matter or a qualified 'except for' opinion, then the licensor must consider the implications of the modification for club licensing purposes. The UEFA Licence may be refused unless additional documentary evidence is provided and assessed to the satisfaction of the licensor. The additional evidence that may be requested by the licensor will be dependent on the reason for the modification to the audit report.
 - f) If the auditor's report makes a reference to any situation defined in Article 51 paragraph 2(d), the UEFA Licence must be refused.
3. If the licence applicant provides supplementary information, the licensor must additionally assess the auditor's report on the agreed-upon procedures in respect of the supplementary information. The UEFA Licence may be refused if this includes reference to errors and/or exceptions found.

C. Assessment of overdue payables towards other clubs, employees and social/tax authorities

1. In respect of the overdue payables towards other clubs, employees and social/tax authorities, the licensor may decide:
 - a) to assess itself the information submitted by the licence applicant, in which case it must perform the corresponding assessment according to paragraphs 2, 3 and 4 below; or
 - b) to have independent auditors carry out the assessment procedures, in which case it must review the auditor's report and, in particular, verify that the sample selected by the auditor is satisfactory, and it may carry out any additional assessment it believes necessary, i.e. extend the sample and/or request additional documentary evidence from the licence applicant.

2. With regard to overdue payables towards other clubs, if the assessment is done by the licensor, it must assess the information submitted by the licence applicant, in particular the transfers table and corresponding supporting documents, as detailed below. If the assessment is carried out by an auditor the same minimum steps must be performed by the auditor.
 - a) Reconcile the total in the transfers table to the 'Accounts payable relating to player transfers' amount in the annual or interim financial statements as at 31 December.
 - b) Check the mathematical accuracy of the transfers table.
 - c) Select all or a sample of player transfers/loans, compare the corresponding agreements with the information contained in the transfers table and highlight the selected transfers/loans.
 - d) Select all or a sample of transfer payments, compare them with the information contained in the transfers table and highlight the selected payments.
 - e) If there is an amount due as at 31 March, that concerns a transfer that occurred before 31 December of the previous year, examine that by 31 March, at the latest:

- i. an agreement has been reached as per Annex IV(2)(b); or
 - ii. a dispute/claim/proceeding has been brought as per Annex IV(2)(c) or has been contested as per Annex IV(2)(d); or
 - iii. all reasonable measures have been taken as per Annex IV(2)(e).
 - f) Examine all or a selection of bank statements in support of payments.
 - g) If applicable examine documents, including agreements with the relevant football club(s) and/or correspondence with the competent body, in support of e(i), e(ii) and/or e(iii) above.
3. With regard to overdue payables in respect of employees, if the assessment is done by the licensor it must assess the information submitted by the licence applicant, in particular the employees table and other corresponding supporting documents, as detailed below. If the assessment is carried out by an auditor the same minimum steps must be performed by the auditor.
 - a) Obtain the employees table prepared by management.
 - b) Reconcile the total payable in the list of employees to the 'Accounts payable to employees' amount in the annual or interim financial statements as at 31 December.
 - c) Obtain and inspect all or a randomly selected sample of employee confirmation letters and compare the information to that contained in the list of employees.
 - d) If there is an amount due as at 31 March that refers to payables in respect of contractual or legal obligations in respect of its employees that arose before the previous 31 December, examine that, by 31 March at the latest:
 - i. an agreement has been reached as per Annex IV(2)(b); or
 - ii. a dispute/claim/proceeding has been brought as per Annex IV(2)(c) or has been contested as per Annex IV(2)(d).
 - e) Examine all or a selection of bank statements in support of payments.
 - f) If applicable, examine documents, including agreements with the relevant employee(s) and/or correspondence with the competent body, in support of the representations under d(i) and/or d(ii) above.
4. With regard to overdue payables towards social/tax authorities, if the assessment is done by the licensor, it must assess the information submitted by the licence applicant,

in particular the social/tax table and other corresponding supporting documents, as detailed below. If the assessment is carried out by an auditor the same minimum steps must be performed by the auditor.

- a) Obtain the social/tax table prepared by management.
- b) Reconcile the total payable in the social/tax table to the 'Accounts payable to social/tax authorities' amount in the annual or interim financial statements as at 31 December.
- c) Obtain corresponding supporting documents.
- d) If there is an amount due as at 31 March that refers to payables towards social/tax authorities as a result of contractual or legal obligations in respect of its employees that arose before the previous 31 December, examine that, by 31 March at the latest:
 - i. an agreement has been reached as per Annex IV(2)(b); or
 - ii. a dispute/claim/proceeding has been brought as per Annex IV(2)(c) or has been contested as per Annex IV(2)(d).
- e) Examine all or a selection of bank statements in support of payments.
- f) If applicable, examine documents, including agreements with the relevant social/tax authorities and/or correspondence with the competent body, in support of the representations under d(i) and/or d(ii) above.

D. Assessment of the written representation letter prior to the licensing decision

1. In respect of the written representation letter, the licensor must read and consider the impact of any significant change that has occurred in relation to the club licensing criteria.
2. The licensor must also read and consider the information in respect of any event or condition of major economic importance, in combination with the financial statements, future financial information and any additional documentary evidence provided by the licence applicant. The licensor may decide to have this assessment carried out by an auditor.
3. The licensor must assess the club's ability to continue as a going concern until at least the end of the licence season. The UEFA Licence must be refused if, based on the financial information that the licensor has assessed, in the licensor's judgement, the licence applicant may not be able to continue as a going concern until at least the end

of the licence season.

4. If the licence applicant (or the registered member of FSF which has a contractual relationship with the licence applicant within the meaning of Article 12) or any parent company of the licence applicant included in the reporting perimeter is/was seeking protection or has received/is still receiving protection from its creditors pursuant to laws or regulations within the 12 months preceding the licence season then the UEFA Licence must be refused. For the avoidance of doubt the UEFA Licence must also be refused even if the concerned entity is no longer receiving protection from its creditors at the moment the licensing decision is taken.
5. The licensor must check that the total amount paid in the latest reporting period to or for the benefit of agents/intermediaries and the last audited annual financial information assessed by the licensor have been made publicly available either on the licence applicant's website or the licensor's website.

E. Assessment of the future financial information

1. In respect of the future financial information, the licensor must assess whether or not an indicator as defined in Article 52 has been breached. If any indicator has been breached, the licensor may decide:
 - a) to assess itself the information submitted by the licence applicant, in which case it must perform the assessment according to paragraph 2 below; or
 - b) to have independent auditors carry out the assessment procedures, in which case it must review the auditor's report to ensure they performed the assessment procedures as described in paragraph 2 below.
2. The assessment procedures must include, as a minimum, the following:
 - a) Check whether the future financial information is arithmetically accurate;
 - b) Through discussion with management and review of the future financial information, determine whether the future financial information has been prepared using the disclosed assumptions and risks;
 - c) Check that the opening balances contained within the future financial information are consistent with the balance sheet shown in the immediately preceding audited

- annual financial statements or reviewed interim financial statements (if such interim statements have been submitted); and
- d) Check that the future financial information has been formally approved by the executive body of the licence applicant.
 - e) If applicable: examine corresponding supporting documents, including for example agreements with sponsors, banking facilities, share capital increase, bank guarantees and minutes of the board.
3. The licensor must assess the liquidity of the licence applicant (i.e. the availability of cash after taking account of financial commitments) and its ability to continue as a going concern until at least the end of the licence season. The UEFA Licence must be refused if, based on the financial information that the licensor has assessed, in the licensor's judgement, the licence applicant may not be able to meet its financial commitments as they fall due and continue as a going concern until at least the end of the licence season.

Annex VII: Core process

This Annex defines the assessment process (hereafter: core process) of the FSF Club Licensing System and the procedural rules which apply to the decision-making process.

The core process describes the minimum requirements that the licensor has to follow to verify the club licensing criteria described in chapter 3 of these regulations and thus control the issuance of the UEFA Licence to a licence applicant.

The core process is described below and is aimed at:

- a) helping FSF in establishing an appropriate and efficient licensing process according to its needs and organisation;
- b) agreeing on the main requirements that the licensor has to comply with to issue the UEFA Licence;
- c) ensuring that the decision on the granting of the UEFA Licence is made by an independent body (the Club Licensing Committee or the Club Licensing Appeals Committee);
- d) ensuring that the club licensing decision-making bodies receive adequate support from the licensing administration;
- e) ensuring that licence applicants understand and respect the process and deadlines that must be followed to be issued the UEFA Licence.

The club licensing decision-making bodies must operate according to the following procedural rules, which apply to the decision-making process:

a) Deadlines

Deadlines are those defined in the core process outlined in Annex VIII and must be respected.

b) Safeguards of the principle of equal treatment

Fundamental procedural rights shall be guaranteed to any party during the licensing process, particularly the right to equal treatment and the right to a fair hearing, which includes, but is not limited to, the right to speak, the right to consult the case file and the right to have a reasoned decision.

c) Representation

Licence applicants shall have the right to representation (legal or otherwise) before the Club Licensing decision-making bodies.

d) The right to be heard

Taking into account (c) above, all licence applicants shall have the right to be heard by the club licensing decision-making bodies. The identities of the people acting on behalf of the licence applicant shall be verified and these people shall be instructed to tell the truth and shall be informed that they shall be sanctioned by the competent FSF body, should they present false information or represent a false or misleading position (whether positively or by omission).

e) Official language

The official language with regard to applications for the UEFA Licence is Faroese.

f) Time limit to appeal and time limit for requests

The time limit to appeal is 7 (seven) days after the date of the Club Licensing Committee meeting at which the decision appealed against was taken unless for any reason it was not made known to the appellant at this time in which case it must be within 7 (seven) days after the date on which the decision was notified in writing to the licence applicant/licensee.

Time limits are triggered when notified, as above, and shall begin on the day following notification. Saturdays, Sundays and public holidays shall be included in the calculation.

g) Form of appeal

The appeal must be submitted in writing.

The statement of the appeal must mention:

- The decision appealed against;
- The grounds for the appeal (facts and/or law);
- New evidence, and
- The pleadings (including applicable procedural complaints).

h) Submission of appeal

The submission of the appeal must be made by Posta special delivery letter. Such letters must be addressed to the General Secretary of the Faroe Islands Football Association, Gundadalur, postbox 3028, FO-110 Tórshavn.

Such letter must be dispatched (confirmation of which should be retained by the appellant should evidence be needed) in accordance with (f) above.

i) Cost of appeal

An appeal deposit fee of **DKK 5.000** must be submitted in accordance with (f) and (h) above and made payable to the Faroe Islands Football Association, returnable to the appellant (i.e. the licence applicant which received the refusal from the Club Licensing Committee or the licensee whose UEFA Licence has been withdrawn by the Club Licensing Committee) should the appeal be upheld.

j) Effects of an appeal

An appeal submitted in compliance with (f-i) above shall have no delaying effect.

k) Evidence

Any evidence or facts, which are to be used by the appellant to support its case must be referred to in the statement of appeal and where appropriate, supporting documentation must be provided and lodged in accordance with (f) above.

l) Burden of proof

The licence applicant/licensee and the appellant have the burden of proof.

m) Hearings / Deliberations

Any evidence, facts, documents, contentions or allegations must be made in advance of a hearing and must also be presented in the presence of the competent club licensing decision-making body.

After all parties are satisfied with their presentations the competent club licensing decision-making body shall deliberate in general immediately after the hearing.

n) Decision

The club licensing decision-making bodies shall issue their decisions in writing.

Their decisions must mention:

- i. the name of the chairman and, in principle, also of the members present;
- ii. the name of the licence applicant/licensee to which the decision applies;
- iii. the decision taken;
- iv. a clear statement of the grounds for the licence refusal and sanctions (if applicable);
- v. the appeal procedure (if applicable); and
- vi. the date, place and signature of the chairman.

Steps in the core process

1. The licensing manager produces and distributes licensing documents, including a copy of these regulations and required application form(s).
2. The licence applicant completes and returns the application form(s) with the necessary supporting documentation.
3. The licensing manager checks that the documents returned by the licence applicant are complete for review and that they are returned within the stipulated deadlines.

Decision – Two alternatives: step (A) or step 4

A.

If the applicant does not return the completed application form(s) with the necessary supporting documentation, by the stipulated deadline, then the licensing manager informs the licence applicant of the missing application form(s) and/or documentation and the applicant is sanctioned with a fine of **DKK 10.000** payable to FSF. The licence applicant then receives an extension from the licensing manager to submit the missing information **within 10 days** from the time the applicant has been informed by the licensing manager. If the licence applicant does not meet this extended deadline, i.e. does not submit the

information it has been asked to provide by the licensing manager within the extended deadline, then the licence applicant is sanctioned with a fine(s) payable to FSF in accordance to the following catalogue of sanctions:

- I. A fine of **DKK 25.000**, if the audited annual financial statements (Article 47) have not been submitted by the extended deadline (duly signed by the club and auditor); and/or
- II. A fine of **DKK 10.000**, if the declaration from the independent auditor on overdue payables regarding Articles 49, 50 and 50bis has not been submitted by the extended deadline (duly signed by the auditor); and/or
- III. A fine of **DKK 5.000** (per criteria), for every other non-submission by the extended deadline of requested documentation regarding all other criteria the applicant has to fulfill in order to obtain the UEFA Licence.

The applicant is entitled to appeal against any issued fine by the FSF, provided that an appeal has been sent to the FSF Disciplinary Committee within **7 days**, from the time the applicant has been informed by the licensing manager.

The FSF Disciplinary Committee will decide on the appeal in accordance to the FSF Disciplinary Regulations.

When the licence applicant has either submitted the requested information by the licensing manager or the issued extended deadline to the licence applicant has passed, the core process continues to step 4.

4. The licensing manager sorts the information received, records it and forwards it to the appointed advisors with responsibilities for that particular area for review (e.g. legal documents will be forwarded to the legal advisor, financial information to the financial advisor, etc.).
5. The nominated advisors receive the licence applicant's documents from the licensing manager, review the documents, check the fulfilment of the criteria and then submit a report back to the licensing manager on whether the licence applicant fulfills all criteria or not.

6. The licensing manager verifies that the reports of the experts are complete and reviews the reports and the opinion of the advisors.

Decision – Two alternatives: step (B) or step 7

B.

If the nominated advisor reports identify areas that require improvement, further information or clarification from the licence applicant, the licensing manager refers this information back to the licence applicant. The licence applicant then has the opportunity to submit updated information to clarify or confirm a position established by its original submissions.

7. The licensing manager assesses the licence applicant on the basis of the reports of the advisors.
8. The licensing manager prepares the report for consideration of the Club Licensing Committee. This report will contain aspects of the advisor reports and other areas including a recommendation on the UEFA Licence to be granted or refused.
9. The licensing manager receives the **management representations letter (Article 51)** from the licence applicant stating whether or not any events or conditions of major economic importance have occurred; this is to be included in his report to the Club Licensing Committee.
10. The Club Licensing Committee receives the report of the licensing manager 7 days in advance of the deadline for the licensing decision, reviews it, asks the licensing manager for further explanations and/or new documents from the applicant, if necessary, and makes the decision whether to grant the UEFA Licence or not. The Club Licensing Committee may request a hearing with the licence applicant; this happens in particular in the case of the existence of a major economic event.

11. ***Decision of the Club Licensing Committee.***

Decision – Two alternatives: step (C) or step 12.

C.

After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the applicant, the Club Licensing Committee refuses to grant the UEFA Licence. The refusal details the areas of non-compliance and the licence applicant is given the possibility of lodging an appeal before the Club Licensing Appeal Committee.

D.

The licence applicant lodges an appeal in accordance with appeal procedures. The Club Licensing Appeal Committee is notified and the meeting date is set.

E.

The licensing manager produces a report and delivers it to the Club Licensing Appeal Committee. The report details areas of concern and the reasons for the refusal.

F.

The Club Licensing Appeal Committee meets and considers the appeal.

G.

Decision of the Club Licensing Appeal Committee.

Decision – Two alternatives: step H or step 12.

H.

After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the club, the Club Licensing Appeal Committee refuses to grant the UEFA Licence.

12. After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the applicant, the decision-making body issues the UEFA Licence. The issuance of the UEFA Licence is subject to the condition that the licence applicant fulfils all criteria defined in chapter 3 of these regulations which are required to obtain the UEFA Licence. The issued UEFA Licence may or may not detail areas for future attention of the licence applicant.

13. The licensing manager receives the decision of the club licensing decision-making bodies.

On the basis of the decisions made by the club licensing decision-making bodies, he prepares the list of licensing decisions. The list of licensing decisions is sent to UEFA by 31 May 2021 at the latest.

14. After it has been issued the UEFA Licence, up until the end of the licence season, the licensee must promptly notify the licensor in writing of any subsequent event that it is aware of which may have an adverse impact upon the licensee's ability to continue as a going concern until the end of the licence season.

Fulfilment of step 14 shall be assessed by the licensor on an ongoing basis.
