Other cash flows

Cash flows from interest and dividends received and paid must each be disclosed separately. Each must be disclosed in a consistent manner from period to period as either operating, investing or financing activities.

Cash flows arising from taxes on income must be disclosed separately and classified as cash flows from operating activities unless they can be appropriately and specifically identified as financing or investing activities.

2. The components of cash and cash equivalents must be disclosed and a reconciliation of the amounts in the cash flow statement presented, with the equivalent items reported in the balance sheet.

E. Notes to the financial statements

1. Notes to the annual financial statements must be presented in a systematic manner. Each item on the face of the balance sheet, profit and loss account and cash flow statement must be cross-referenced to any related information in the notes. The minimum requirements for disclosure in notes are as follows:

- a) *Accounting policies*

The basis of preparation of the financial statements and a summary of the significant accounting policies used.

- b) *Tangible assets*

Each class of tangible asset must be disclosed separately, e.g. property, stadium and equipment, and right-of-use assets.

The following information must be disclosed for each class of tangible asset:

- i) The gross carrying amount and the accumulated depreciation (aggregated with accumulated impairment losses) at the beginning and end of the period; and
- ii) A reconciliation of the carrying amount at the beginning and the end of the period, showing additions, disposals, increases or decreases during the period resulting from revaluations, any impairment losses recognised in the profit and loss account during the period, any impairment losses reversed in the profit and loss account during the period, and depreciation.

The depreciation methods and useful lives (or depreciation rates) used must be disclosed in the accounting policy notes.

- c) *Intangible assets*

Each class of intangible asset must be disclosed separately e.g. player registrations, goodwill, and other intangible assets.

The following information must be disclosed for each class of intangible asset:

- i) The gross carrying amount and the accumulated amortisation (aggregated with accumulated impairment losses) at the beginning and end of the period; and

ii) A reconciliation of the carrying amount at the beginning and the end of the period, showing additions, disposals, any decreases during the period resulting from impairment losses recognised in the profit and loss account during the period, and amortisation.

See Annex IV for further information on accounting requirements for player registrations.

d) *Pledged revenues and assets*

The reporting entity must disclose:

i) The existence and amounts of restrictions on title, and property, plant and equipment (such as the stadium and training facilities) pledged as security for liabilities or contingent liabilities;

ii) The existence and carrying amounts of intangible assets whose title is restricted and the carrying amount of intangible assets (such as player registrations) pledged as security for liabilities or contingent liabilities; and

iii) The existence and carrying amount of financial assets and/or amount of future income (such as receivables and future income in respect of disposal of a player's registration, competition distributions/prize money, season ticket and other gate receipts, broadcasting rights and sponsorship arrangements) pledged as security for liabilities or contingent liabilities.

e) *Investments*

Investments must include investments in subsidiaries, jointly controlled entities and associates. In respect of investments in subsidiaries, jointly controlled entities and associates, the following information must be disclosed as a minimum for each investment:

i) Name;

ii) Country of incorporation or residence;

iii) Type of business/operations of the entity;

iv) Proportion of ownership interest;

v) If different, proportion of voting power held; and

vi) Description of the method used to account for the investments.

f) *Bank overdrafts and loans*

For each class of financial liability the following must be disclosed:

i) Information about the extent and nature of the financial instruments, including amounts and duration and any significant terms and conditions that may affect the amount, timing and certainty of future cash flows; and

ii) The accounting policies and methods adopted, including the criteria for recognition and the basis of measurement applied.

g) *Provisions*

Provisions must be disclosed in separate classes. In determining which provisions may be aggregated to form a class, it is necessary to consider whether the nature of the items is sufficiently similar to be combined in a statement of a single amount.

For each class of provision, the carrying amount at the beginning and end of the period, the amount utilised and any amount released, or credited, in the period must be disclosed.

h) *Issued capital and reserves*

Share capital, revaluation reserves, other reserves and retained earnings must be disclosed separately.

i) *Share/fund capital*

In relation to share capital issued during the reporting period, the following must be disclosed:

- Number and type of shares issued;
- Share premium (if applicable) arising on the shares issued;
- Total amount raised as a result of the issuing of shares;
- Reason for the issuing of new shares.

ii) *Revaluation reserves*

Where items of property, stadium, equipment and/or intangible assets are stated at revalued amounts, the revaluation surplus, indicating the change for the reporting period and any restrictions on the distribution of the balance to shareholders, must be disclosed.

iii) *Other reserves*

Any other form of reserves that is not contained in revaluation reserves, including any changes for the reporting period and any restrictions on the distribution of the balance to shareholders, must be disclosed.

iv) *Retained earnings*

The balance of retained earnings, i.e. accumulated profit or loss at the beginning of the reporting period and at the balance sheet date, and changes during the reporting period must be disclosed.

i) *Controlling party and ultimate controlling party*

When the reporting entity is controlled by another party, the related party relationship and the name of that party must be disclosed and, if different, that of the ultimate controlling party. This information must be disclosed irrespective of whether any transactions have taken place between the reporting entity and the controlling party or parties.

j) *Related-party transactions*

A related-party transaction means a transfer of resources, services or obligations between related parties, regardless of whether a price has been charged. A related-party transaction may or may not have taken place at fair value.

If there have been one or more related party transactions during the reporting period, the reporting entity must disclose the nature of the related party relationship, as well as information about the transaction(s) and outstanding balances, including commitments, necessary for an understanding of the potential effect of the relationship on the financial statements. Items of a similar nature may be disclosed in aggregate except when separate disclosure is necessary to understand the effects of related-party transactions on the financial statements of the reporting entity.

As a minimum, disclosures for each related party must include:

- i) the amount and the nature of the transaction(s);
- ii) the amount of outstanding balances, including commitments, and:
 - their terms and conditions, including whether they are secured, and the nature of the consideration to be provided in settlement; and
 - details of any guarantees given or received;
- iii) provisions for doubtful debts related to the amount of outstanding balances; and
- iv) the expense recognised during the period in respect of bad or doubtful debts due from related parties.

The disclosures required must be made separately for each of the following categories:

- The parent;
- Entities with joint control or significant influence over the reporting entity;
- Subsidiaries;
- Associates;
- Joint ventures in which the reporting entity is a venturer;

- The entity or its parent's key management personnel; and
- Other related parties.

Confirmation that related-party transactions were made on terms equivalent to those that prevail in arm's length transactions must be given if such terms can be substantiated.

k) *Contingent liabilities*

Unless the possibility of any outflow in settlement is remote, for each class of contingent liability the reporting must disclose a brief description of the nature of the contingent liability at an annual accounting reference date and, where practicable:

- i) an estimate of its financial effect;
- ii) an indication of the uncertainties relating to the amount or timing of any outflow; and
- iii) the possibility of any reimbursement.

l) *Events after the balance sheet date*

Material non-adjusting events after the balance sheet date must be disclosed including the nature of the event and an estimate of its financial effect, or a statement that such an estimate cannot be made. Examples of such events are:

- i) fixed-term borrowing approaching maturity without realistic prospects of renewal or repayment;
- ii) substantial operating losses;
- iii) discovery of material fraud or errors that show the financial statements are incorrect;
- iv) management determining that it intends to liquidate the entity or to cease trading, or that it has no realistic alternative but to do so;
- v) player transactions where the amounts paid or received are material;
- vi) transactions relating to property, e.g. in relation to the club's stadium.

m) *Other disclosures*

i) *Agent/intermediary fees*

The total amount incurred in the reporting period in respect of or for the benefit of agents/intermediaries must be disclosed.

ii) Tax expense

The components of tax expense must be disclosed separately. That is, the aggregate amount included in the determination of net profit or loss for the reporting period in respect of current and/or deferred tax.

iii) Miscellaneous

Any additional information or disclosure that is not presented on the face of the balance sheet, profit and loss account or cash flow statement, but is relevant to an understanding of any of those statements and/or is required to meet the minimum financial information requirements, must be disclosed.

2. Notes to the interim financial statements consist, as a minimum, of:

- a) a statement that the same accounting policies and methods of computation are followed in the interim financial statements as in the most recent annual financial statements or, if those policies or methods have been changed, a description of the nature and effect of the change;
- b) notes equivalent to those in the annual financial statements as defined in Annex III E(1); and
- c) disclosure of any events or transactions that are material to an understanding of the interim period.

F. Player identification table

1. All licence applicants/licensees must prepare and submit to the licensor a player identification table.
2. The player identification table must be provided to the auditor, who must reconcile the aggregate figures in the player identification table to the relevant figures in the balance sheet and profit and loss account in the annual financial statements and interim financial statements. However, the player identification table does not need to be disclosed within the annual financial statements or interim financial statements.
3. The minimum information to be included in the player identification table in respect of each relevant player is as follows:
 - a) Name and date of birth;
 - b) Start date of original player contract and end date of current contract;
 - c) Costs of the player's registration;
 - d) Accumulated amortisation brought forward and as at the end of the period;

- e) Amortisation of the player's registration in the period;
 - f) Impairment of the player's registration in the period;
 - g) Disposals of the player's registration (cost and accumulated amortisation);
 - h) Net book value (carrying amount);
 - i) Profit/loss on disposal of the player's registration; and
 - j) Sell-on rights (or similar), i.e. description and (if possible) quantification of any sell-on rights to a football club that formerly held the player's registration, excluding training compensation and/or solidarity contributions.
4. Relevant players, about whom details are required in the player identification table, are:
- a) All players whose registration is held by the licence applicant/licensee at any time during the period and in respect of whom some direct acquisition cost has been incurred (at some point in time in the reporting period or prior periods); and
 - b) all players in respect of whom some income/profit (or loss) has been recognised (at some point in time in the reporting period).
5. For licence applicants/licensees who have restated player accounting figures to meet the accounting requirements of these regulations, these aggregate figures from the player identification table must agree with/be reconciled to the restated financial statements.

G. Financial review by management

1. The annual financial statements must include a financial review or commentary by management (sometimes referred to as a directors' report) that describes and explains the main features of the reporting entity's financial performance and financial position and the principal risks and uncertainties it faces.
2. The annual financial statements must also include the names of persons who were members of the reporting entity's executive body or board of directors and its supervisory bodies at any time during the year.

Annex IV: Accounting requirements for the preparation of financial statements

A. Principles

1. Financial statements as defined in Article 66 and Article 68 must be based on the accounting standards required by local legislation for incorporated companies – either the applicable financial reporting framework of the Faroe Islands, the International Financial Reporting Standards or the International Financial Reporting Standard for Small and Medium-sized Entities – regardless of the legal structure of the licence applicant.
2. Financial statements must be prepared on the assumption that the licence applicant is a going concern, meaning it will continue in operation for the foreseeable future. It is assumed that the licence applicant has no intention or need to go into liquidation, cease trading or seek protection from creditors pursuant to laws or regulations.
3. The financial reporting framework, suitable as a basis for the preparation of financial statements, must contain certain underlying principles including:
 - a) fair presentation;
 - b) consistency of presentation;
 - c) accrual basis for accounting;
 - d) separate presentation of each material class of items;
 - e) no offsetting of assets and liabilities or income and expenses.
4. Notwithstanding that each licence applicant has to prepare annual financial statements and interim financial statements under its own national accounting practice for incorporated companies, the International Financial Reporting Standards or the International Financial Reporting Standard for Small and Medium-sized Entities, these regulations include specific accounting requirements to be complied with as set out in Annex IV, B to F.
5. If the annual financial statements and/or interim financial statements are not in compliance with the accounting requirements set out in Annex IV, then the licence applicant must also submit to the licensor:
 - a) restated financial statements to meet the accounting requirements set out in Annex IV, covering the same period and including comparative amounts for the previous comparative period;
 - b) a declaration by the licence applicant's management that the restated financial statements are complete, accurate and in compliance with the regulations; and

- c) an assessment report provided by the same auditor that signs the annual financial statements and/or interim financial statements by way of agreed-upon procedures prescribed by the licensor in respect of the completeness and accuracy of the restated financial statements.
6. Restated financial statements must include:
- a) a restated balance sheet as at the end of the period;
 - b) a restated profit and loss account/income statement for the period;
 - c) a restated statement of changes in equity for the period; and
 - d) notes, comprising a summary of significant accounting policies, other explanatory notes, and a note (or notes) reconciling the balance sheet and profit and loss account/income statement between the restated financial statements and the relevant annual financial statements or interim financial statements.

B. Consolidation/combination requirements

1. The financial information of all entities included in the reporting perimeter (as defined in Article 65) must be either consolidated or combined as if they were a single company.
2. Consolidated financial statements are the financial statements of a group in which the assets, liabilities, equity, income, expenses and cash flows of the parent and its subsidiaries are presented as those of a single company.
3. Combined financial statements are those that include information about two or more commonly controlled entities without information about the controlling entity.

C. Accounting requirements for the permanent transfer of a player's registration

1. The acquisition of a player's registration must be recognised in the financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional, which means that there must be a legally binding agreement between the two clubs and between the acquiring club and the player.
2. The disposal of a player's registration must be recognised in the licence applicant's financial statements when all significant conditions for the transfer to take place have been satisfied, i.e. it is effectively unconditional and the risks and rewards have been

transferred to the new club.

3. Licence applicants that capitalise the costs of a player's registration as an intangible asset must apply certain minimum accounting requirements as described in Annex IV C(4), Annex IV C(5) and Annex IV C(6) of this part Annex IV C. A licence applicant can expense the costs of a player's registration rather than capitalise them as an intangible asset if this is permitted under national accounting practice.
4. The minimum accounting requirements for licence applicants that capitalise the costs of a player's registration as an intangible asset are as follows:
 - a) Only the directly attributable costs of a player's registration can be capitalised as an intangible asset. For accounting purposes, the carrying value of an individual player must not be revalued upwards, even though a license applicant's management may believe market value is higher than carrying value. In addition, whilst it is acknowledged that a licence applicant may be able to generate some value from the use and/or transfer of locally trained players, for accounting purposes costs relating to a license applicant's own youth sector must not be included in the balance sheet – as only the costs of a player's registration are to be capitalised. All forms of consideration to and/or benefit of players (such as sign-on fees) must be treated as employee benefits expenses and not costs of a player's registration. Finance costs arising in respect of borrowings are treated as finance costs and are not costs of a player's registration even if the borrowings were obtained to help finance the acquisition of player registrations.
 - b) Amortisation of costs of a player's registration must begin when the player's registration is acquired. Amortisation ceases when the asset is fully amortised or derecognised (i.e. the registration is considered as being permanently transferred to another club), whichever comes first.
 - c) For each individual player's registration, the depreciable amount must be allocated on a systematic basis over the duration of the player's original contract, up to a maximum of 5 years. This is achieved by the systematic allocation of the cost of the asset as an expense from the date the player's registration is acquired and over the period of the player's contract, up to a maximum of 5 years. If the period of a player's contract with the club is extended, then the intangible asset carrying value of the player's registration plus any additional directly attributable contract negotiation costs (e.g. agent/intermediary fees) can either be amortised over the extended period of the player's contract, up to a maximum of 5 years from the date of the contract extension.
 - d) All capitalised player values must be reviewed for impairment each year by the license applicant's management. If the recoverable amount for an individual player is lower than the carrying amount on the balance sheet, the carrying amount must

be adjusted to the recoverable amount and the adjustment charged to the profit and loss account as an impairment cost. It is recommended that each licensor requires each of its licence applicants to apply consistent accounting policies in respect of player registration costs.

The net book value of a player's registration should be reviewed for impairment in the reporting period in the following circumstances:

- i. When it becomes clear by the annual accounting reference date that a player will not be able to play again with the club, for example if he suffers a career-threatening injury or is permanently unable to play professional football. In this case, the net book value of the player's registration on the balance sheet must be fully impaired in that reporting period. The following events do not represent a cause for recognising impairment loss:
 - A player suffers an injury in a reporting period and is temporarily unable to play professional football with the club, or
 - A player suffers a decline in fitness or ability and is not selected for participation in first team matches.

In this regard, future wages of a player suffering from a career-threatening injury or permanently unable to play professional football must continue to be recognised as employee benefits expenses throughout the duration of the player's contract.

- ii. If the management of the club is committed to permanently transfer a player's registration and the transfer occurs just after the annual accounting reference date. In this case, the net book value of the player's registration on the balance sheet should be reviewed for impairment if the disposal proceeds for the permanent transfer of the player's registration to the new club is lower than his net book value. The accounting principle must be disclosed in the financial statements and applied consistently from one reporting period to another.
 - iii. If the management of the club has temporarily transferred a player's registration for an amount lower than the amortisation cost.
5. If two or more players are transferred in opposite directions between clubs, the licence applicant must assess whether these transfers are to be considered as player exchange transactions under the terms of these regulations. If so, the international accounting requirements for the exchange of assets (i.e., currently International Accounting Standard 38, paragraphs 45-47) are to be applied when calculating the profit from the disposal of the outgoing player(s) and the registration costs for the incoming player(s).

In principle, when calculating the profit from the disposal of the outgoing player's registration, the proceeds cannot exceed the net book value of the cost of the player's

registration in the licence applicant's financial statements, adjusted to take account of any net cash paid in the context of the exchange transaction and the registration costs for the incoming player must be capitalised at the maximum at the carrying amount of the outgoing player, adjusted to take account of any net cash paid by the club in the context of the exchange transaction.

A player exchange transaction is when two or more players are transferred in opposite directions between clubs, and which typically includes one or more of the following conditions in respect of the players transferred in and out (not exhaustive list). Transfers, incoming and outgoing:

- are included in the same transfer contract;
 - are included in different transfer contracts that are linked to each other;
 - are concluded in the same registration period;
 - do not involve any or only limited monetary disbursements;
 - do involve the same or similar payment obligations or payment deadlines for both the players transferred in and the players transferred out that are likely to offset each other.
6. Profit/loss on disposal of a player's registration must be calculated net of any amounts paid and/or payable that are directly attributable to the disposal of the player's registration, comprising:
- a) realised conditional transfer compensation for amounts which have become payable on the disposal of the player's registration (e.g. sell-on fee payable to another club);
 - b) any other directly attributable amounts paid and/or payable to another party such as another football club, agent/intermediary, or national football association/league.
7. The licence applicant must apply the following adjustments in respect of the permanent transfer of a player's registration between clubs that are related parties:
- a) The club that has transferred in the player's registration must calculate the cost of acquiring the player's registration – for the calculation of an amortisation charge for the reporting period (for clubs using the capitalisation and amortisation method of accounting for player registrations) or for the costs of the player's registration (for clubs using the income and expense method of accounting for player registrations) – using the greater of the following amounts:
 - i. The actual transaction cost of acquiring the player's registration;
 - ii. The historical costs of the player's registration in the financial statements of the club that has transferred out the player.

If the calculated amortisation charge is greater than the recorded amortisation charge or the calculated costs of the player's registration are greater than the recorded costs of the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

- b) The club that has transferred out the player's registration must calculate the disposal proceeds of the player's registration – for the calculation of the profit on disposal of the player's registration (for clubs using the capitalisation and amortisation method of accounting for player registrations) or for the income from the player's registration (for clubs using the income and expense method of accounting for player registrations) – using the lower of the following amounts:
 - i. The actual transaction proceeds on disposal;
 - ii. The net book value in respect of the costs of the player's registration in its financial statements.

If the calculated profit on disposal is lower than the recorded profit on disposal or the calculated income from the player's registration is lower than the recorded income from the player's registration, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

8. The above accounting requirements apply by analogy to any other personnel, e.g. head coach, and release income/costs or similar paid to another club.

D. Accounting requirements for the temporary transfer of a player's registration

1. The minimum accounting requirements for licence applicants that have transactions in respect of the temporary transfer of a player's registration (loan) are as follows:
2. Loan fees received/paid must be reported as player transfer income/expense.
3. Loan of a player from the lender club to the new club with no obligation/option to buy:
 - a) The loan fees received/receivable by the lender club, if any, must be recognised as income over the period of the loan arrangement. The lender club will continue to recognise the original costs of a player's registration as an intangible asset on its balance sheet and to systematically allocate the cost of the asset as an amortisation expense over the period of the player's contract.
 - b) The loan fees paid/payable by the new club, if any, must be recognised as an expense over the period of the loan arrangement. If the player's salary is taken over by the new club, it must be recognised as an employee benefit expense over the player's

loan term.

4. Loan of a player from the lender club to the new club with an unconditional obligation to buy:
 - a) The loan must be reflected by the lender club as a permanent transfer and the player's registration rights must be derecognised from its intangible assets. The proceeds from the loan and from the future permanent transfer must be recognised from the inception of the loan agreement.
 - b) The directly attributable costs of the loan and the future permanent transfer for the new club must be recognised by the new club in accordance with the accounting requirements for permanent acquisition of a player's registration.

5. Loan of a player from the lender club to the new club with an option to buy
 - a) The transaction must be recorded as a loan by the lender club until the option is exercised by the new club. When the option is exercised, any remaining proceeds of the loan and proceeds of the future permanent transfer must be recognised in accordance with the accounting requirements for the permanent disposal of a player's registration.
 - b) When the option is exercised by the new club, any remaining costs of the loan and the costs of the future permanent transfer must be recognised by the new club in accordance with the accounting requirements for the permanent acquisition of a player's registration.

6. Loan of a player from the lender club to the new club with a conditional obligation to buy:
 - a) If a condition is considered to be virtually certain, then the player's registration must be recognised by both clubs as a permanent transfer from the inception of the loan agreement.
 - b) If the fulfilment of a condition cannot be assessed with sufficient certainty to trigger the permanent transfer from the inception of the loan, then the player's registration must be recognised first as a loan and then as a permanent transfer once the condition is met.

7. The license applicant must apply the following adjustments in respect of the temporary transfer of a player's registration between clubs that are related parties:
 - a) The club that has temporarily transferred in the player's registration must calculate an expense amount in respect of the player for the reporting period using the greater of the following amounts:
 - i. The actual transaction cost in the reporting period;

- ii. The aggregate amount of the amortisation charge in respect of the player's registration and the employee benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player.
If the calculated expense is greater than the recorded expense, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.
- b) The club that has temporarily transferred out the player's registration must calculate an income amount in respect of the player for the reporting period using the lower of the following amounts:
- i. The actual transaction income in the reporting period;
 - ii. The aggregate amount of the amortisation charge in respect of the player's registration and the employee benefit expenses in respect of the player for the period of the loan as recorded in the financial statements of the club that has temporarily transferred out the player.
If the calculated income amount is lower than the recorded income, then an appropriate adjustment must be made so that the difference is recognised in the restated financial statements.

E. Accounting requirements for specific expense items

1. Incentive/bonus expenses for employees

- a) All forms of consideration given by an entity in exchange for services rendered by an employee, including any bonuses and incentives such as performance-related consideration, contract signing fees, and loyalty incentives, must be reported as employee benefit expenses.
- b) Bonus and/or incentive payments that are payable in full by the club to a person with no further condition or service obligation (i.e. the club has no choice but to make the payments) must be recognised as employee benefit expenses when triggered.
- c) Bonus and/or incentive payments that are dependent on a certain future condition being satisfied by the player and/or the club, such as a player's participation in matches and/or the club's competition performance, must be recognised as employee benefit expenses at the point in time when the condition has been satisfied or its fulfilment becomes highly probable.
- d) Incentive and/or bonus to players when entering and/or extending an employment agreement with any condition or service obligation must be recognised on a systematic basis over the relevant period.

2. Termination benefits to employees

A club must recognise in full the expense of termination benefits to an employee when the club can no longer withdraw the offer of those benefits.

F. Accounting requirements for specific revenue items

1. Season tickets and similar revenues

Revenue in respect of season ticket sales or similar match-related sales must be recognised on a proportionate basis at the point in time when the relevant matches take place during the period.

2. Broadcasting rights and/or prize money revenues

- a) Revenue in respect of broadcasting rights and/or other consideration for participation in a competition which are fixed considerations must be recognised on a proportionate basis at the point in time when the relevant matches take place during the period.
- b) Revenue in respect of broadcasting rights and/or consideration for participation in a competition which are variable considerations that depend on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.

3. Sponsorship and advertising revenues

- a) Revenue in respect of sponsorship rights and advertising which are fixed considerations must be recognised on a proportionate basis over the period covered by the sponsorship rights and/or advertising arrangements.
- b) Revenue in respect of sponsorship rights and advertising which are variable considerations that depend on certain conditions being satisfied by the club (such as competition performance bonuses) must be recognised at the point in time when the performance obligations are satisfied.
- c) Any non-cash consideration as part of a sponsorship and/or advertising arrangement must be measured at fair value.

4. Donations and grants/subsidies

- a) A donation is an unconditional gift of consideration that must be recognised as other operating income when received.
- b) Grants/subsidies must not be recognised in the accounts of the club until there is reasonable assurance that the club will comply with the conditions to receive the grant/subsidy and the grant/subsidy will be received. Then, a grant/subsidy must be recognised in profit and loss on a systematic basis over the reporting periods in

which the club recognises as expenses the related costs for which the grants/subsidies were intended to compensate. Therefore, grants/subsidies in respect of specific expenses are recognised in profit and loss in the same reporting period(s) as the relevant expenses. Similarly, grants/subsidies related to depreciable assets are recognised in profit and loss over the reporting periods and in the proportions in which depreciation expenses on those assets are recognised. A grant/subsidy that becomes receivable as compensation for expenses or losses already incurred or for the purpose of giving immediate financial support with no future related costs must be recognised in profit or loss in the period in which it becomes receivable.

Annex V: Notion of overdue payables

Principles

1. Payables are considered as overdue if they are not paid according to the contractual or legal terms.
2. Payables are not considered as overdue, within the meaning of these regulations, if the licence applicant/licensee (i.e. debtor club) is able to prove by the applicable deadline, i.e. 31 March in respect of Articles 70 to 73, that:
 - a) the relevant amount has been settled, i.e. either paid in full or offset against the creditor's obligations towards the debtor; or
 - b) the deadline for payment of the relevant amount has been deferred (referred to as "amounts deferred" in these regulations), i.e. an agreement has been concluded in writing with the creditor to extend the deadline for payment (a creditor not requesting payment of an amount does not constitute an extension of the deadline); or
 - c) the relevant amount is subject to a legal claim or open proceedings (referred to as "amounts disputed" in these regulations), meaning:
 - i. the debtor has brought a legal claim which has been deemed admissible by the competent authority under Faroese law or has opened proceedings with the Faroese or international football authorities or relevant arbitration tribunal contesting liability in relation to the overdue payable; knowing that if the decision-making bodies (FSF or CFCB) consider that such claim has been brought or such proceedings have been opened for the sole purpose of avoiding the applicable deadlines set out in these regulations (i.e. in order to buy time), the amount will still be considered as an overdue payable; or
 - ii. the debtor has contested to the competent authority under Faroese law, the Faroese or international football authorities or the relevant arbitration tribunal, a claim which has been brought or proceedings which have been opened against it by a creditor in respect of overdue payables and is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies (FSF or CFCB) that it has established reasons for contesting the claim or proceedings which have been opened; knowing that if the decision-making bodies (FSF or CFCB) consider the reasons for contesting the claim or proceedings as manifestly unfounded the amount will still be considered as an overdue payable; or

- d) the settlement of the relevant amount is pending (referred to as “amounts pending” in these regulations), meaning:
 - i. the debtor has requested a competent authority, in writing and in accordance with the applicable law, to extend the deadline for payment of payables to social/tax authorities (as defined by Article 72), and the competent authority has confirmed in writing that this request has been deemed admissible and still pending by 31 March (in respect of Article 72); or
 - ii. the debtor is able to demonstrate to the comfortable satisfaction of the relevant decision-making bodies (FSF or CFCB) that it has taken all reasonable measures to identify and pay the creditor (s) in respect of training compensation and solidarity contributions (as defined in the FIFA Regulations on the Status and Transfer of Players).

Annex VI: Licensor's assessment procedures

A. Principle

1. The licensor defines the assessment procedures, ensuring equal treatment of all clubs applying for a licence. It assesses the documentation submitted by the clubs, considers whether this is appropriate and determines to its comfortable satisfaction whether each criterion has been met and what further information, if any, is needed for each licence to be granted.
2. The assessment processes to check compliance with the defined provisions set out in Article 11 and Article 74 comprise specific assessment steps that must be followed by the licensor as set out below.

B. Assessment of the auditor's report on the financial statements

1. In respect of the annual financial statements and interim financial statements, the licensor must perform the following minimum assessment procedures:
 - a) Assess whether the reporting perimeter is appropriate for club licensing purposes;
 - b) Assess the information submitted to form a basis for the licensing decision;
 - c) Read and consider the annual financial statements and interim financial statements and the auditor's report thereon;
 - d) Address the consequences of any modifications to the auditor's report (compared to the normal form of unqualified report) and/or deficiencies compared to the minimum disclosure and accounting requirements according to paragraph 2 below.
2. Having assessed the reporting perimeter and read the auditor's report on the annual financial statements and interim financial statements, the licensor must assess these according to the items below:
 - a) If the reporting perimeter does not meet the requirements of Article 65, the UEFA licence must be refused.
 - b) If the auditor's report has an unqualified opinion, without any modification, this provides a satisfactory basis for granting the UEFA licence.
 - c) If the auditor's report has a disclaimer of opinion or an adverse opinion, the UEFA licence must be refused, unless a subsequent audit opinion without disclaimer of

opinion or adverse opinion is provided (in relation to another set of financial statements for the same financial year that meet the minimum requirements) and the licensor is satisfied with the subsequent audit opinion;

- d) If the auditor's report has, in respect of going concern, an emphasis of matter, a key audit matter or a qualified 'except for' opinion, the UEFA licence must be refused, unless either:
 - i. a subsequent audit opinion without going concern, an emphasis of matter, a key audit matters or qualification is provided, in relation to the same financial year; or
 - ii. additional documentary evidence demonstrating the licence applicant's ability to continue as a going concern until at least the end of the licence season has been provided to, and assessed by, the licensor to its satisfaction. The additional documentary evidence must include, but is not necessarily limited to, the information described in Article 74.
 - e) If the auditor's report has, in respect of a matter other than going concern, an emphasis of matter, a key audit matter or a qualified 'except for' opinion, then the licensor must consider the implications of the modification for club licensing purposes. The UEFA licence may be refused unless additional documentary evidence is provided and assessed to the satisfaction of the licensor. The additional evidence that may be requested by the licensor will be dependent on the reason for the modification to the audit report.
 - f) If the auditor's report makes a reference to any situation defined in Article 64, the UEFA licence must be refused.
3. If the licence applicant provides supplementary information and/or restated financial statements, the licensor must additionally assess the auditor's report on the agreed-upon procedures in respect of the supplementary information and/or restated financial statements. The UEFA licence may be refused if the auditor's report is not to the satisfaction of the licensor and/or includes reference to errors and/or exceptions found.
 4. The licensor must check that the licence applicant has published the financial information in accordance with Article 67.

C. Assessment of licensing documentation for the net equity rule

1. In respect of the net equity rule, the licensor must perform the following minimum assessment procedures:
 - a) Determine the net equity position as at the 31 December preceding the deadline for submission of the application to the licensor based on the annual financial

- statements or interim financial statements;
- b) Assess, if applicable, whether the subordinated loans meet the required conditions;
 - c) If the net equity position as at the 31 December preceding the deadline for submission of the application to the licensor is negative, assess whether it has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year;
 - d) If the equity rule is not fulfilled as at the 31 December preceding the deadline for submission of the application to the licensor, assess if the licence applicant has submitted by 31 March at the latest a new audited balance sheet, including any contributions made since 31 December, demonstrating that the net equity position has improved by at least 10% compared with the net equity position that enabled the licence applicant to satisfy the net equity rule in the previous year.

D. Assessment of licensing documentation for no overdue payables

1. In respect of the “no overdue payables” criteria to football clubs, employees and social/tax authorities, the licensor may decide:
 - a) to assess itself the information submitted by the licence applicant, in which case it must perform the assessment as set out in paragraph 2 below; or
 - b) to have independent auditors carry out the assessment procedures in accordance with ISRS 4400, in which case the licensor must assess the information submitted by the license applicant (in particular the payables tables and corresponding supporting documents) and review the auditor’s report. The licensor may carry out any additional assessment it believes necessary, including by extending the sample or requesting additional documentary evidence from the licence applicant.
2. Notwithstanding whether the assessment is carried out by the licensor or an independent auditor in respect of the “no overdue payables” criteria to football clubs, employees and social/tax authorities, the following minimum procedures must be performed and described in the licensor’s or auditor’s report:
 - a) Obtain the payables tables as at 31 March submitted by the licence applicant in respect of obligations due to be paid by 28 February (i.e. the transfers table, the employee table, the social/tax table and corresponding supporting documents);
 - b) Perform the necessary steps (including determination of the sample size) to assess the completeness and accuracy of the reported balances and issue a conclusion with regard to each of the procedures performed;

- c) Check the completeness of any overdue balance reported by the licence applicant as at 28 February;
 - d) Check the settlement of any overdue payables between 28 February and 31 March; and
 - e) Identify any overdue balance as at 31 March.
3. In respect of the “no overdue payables” criterion in respect of UEFA and the licensor, the licensor must perform, as a minimum, the following assessment procedures:
- a) Review any information received from UEFA with regard to pending overdue amounts owed by the licensor’s affiliated clubs and check the settlement of any overdue balance between 28 February and 31 March; and
 - b) Carry out any additional assessment and request any additional documentary evidence from the licence applicant it believes necessary.

E. Assessment of the written representation prior to the licensing decision

1. In respect of the written representation, the licensor must read and consider the impact of any significant change that has occurred in relation to the club licensing criteria.
2. The licensor must also read and consider the information in respect of any event or condition of major economic importance, in combination with the financial statements, future financial information and any additional documentary evidence provided by the licence applicant. The licensor may decide to have this assessment carried out by an auditor.
3. The licensor must assess the club’s ability to continue as a going concern until at least the end of the licence season. The UEFA licence must be refused if, based on the financial information that the licensor has assessed, in the licensor’s judgement, the licence applicant may not be able to continue as a going concern until at least the end of the licence season.
4. If the licence applicant (or the registered member which has a contractual relationship with the licence applicant within the meaning of Article 14) or any parent company of the licence applicant included in the reporting perimeter is/was seeking protection or has received protection from its creditors pursuant to laws or regulations within the 12 months preceding the licence season or is receiving protection at the time of the assessment then the UEFA licence must be refused. For the avoidance of doubt the UEFA licence must also be refused even if the concerned entity is no longer receiving protection from its creditors at the moment the licensing decision is taken.

F. Assessment of future financial information

1. In respect of future financial information, the licensor must assess whether or not the license applicant exhibits the condition as defined in Article 74. If the license applicant is required to submit future financial information, the licensor may decide:
 - a) to assess the information submitted by the licence applicant, in which case the licensor must perform the assessment according to paragraph 2 below; or
 - b) to have independent auditors carry out the assessment procedures in accordance with ISRS 4400, in which case the licensor must review the auditor's report to ensure they performed the assessment procedures as described in paragraph 2 below.
2. The assessment of future financial information must include, as a minimum, the following procedures:
 - a) Check whether the future financial information is arithmetically accurate;
 - b) Determine, through discussion with the license applicant's management and review of the future financial information, whether the future financial information has been prepared using the disclosed assumptions and risks;
 - c) Check that the opening balances contained within the future financial information are consistent with the balance sheet shown in the immediately preceding audited annual financial statements or reviewed interim financial statements (if such interim statements have been submitted);
 - d) Check that the future financial information has been formally approved by the executive body of the licence applicant by way of a declaration by the licence applicant's management that the documents submitted are complete, accurate and in compliance with these regulations;
 - e) If applicable, examine corresponding supporting documents, including agreements with sponsors, banking facilities, share capital increase, bank guarantees and minutes of board meetings.
3. The licensor must assess the liquidity of the licence applicant, i.e. the availability of cash after taking account of financial commitments and its ability to continue as a going concern until at least the end of the licence season. The UEFA licence must be refused if, based on the financial information that the licensor has assessed, in the licensor's judgement, the licence applicant may not be able to meet its financial commitments as they fall due and continue as a going concern until at least the end of the licence season.

G. Assessment of monitoring documentation for the solvency requirements

1. In respect of the monitoring documentation for the “no overdue payables” requirements (towards football clubs, employees and social/tax authorities), the licensor must perform, as a minimum, the following assessment procedures:
 - a) Read the licensee’s completed payables information and make enquiries to the licensee if there is any information with regard to amounts payable to other clubs, employees and social/tax authorities that may be incomplete and/or inaccurate based on the licensor’s existing knowledge of the licensee from club licensing and/or other reasonable sources;
 - b) Confirm that all requested supporting documents have been attached to the licensee’s submission.
2. The licensor must confirm to the CFCB and/or the UEFA administration the results of the above assessment procedures.

H. Assessment of monitoring documentation for the stability requirements

1. In respect of the monitoring documentation for the stability requirements, the licensor must assess whether or not the financial information submitted by the licensee corresponds to the information in respect of the same reporting entity/entities submitted for club licensing purposes.
2. In addition, the licensor’s assessment must include, as a minimum, the following procedures:
 - a) Check that the amounts in the monitoring documentation for the stability requirements and that the key balances identified by UEFA are consistent with the amounts contained in the annual financial statements and underlying accounting records;
 - b) Check that the monitoring documentation for the stability requirements has been formally approved by the executive body of the licensee by way of a declaration by the licensee’s management that the documents submitted are complete, accurate and in compliance with these regulations.
3. The licensor must confirm to the CFCB and/or UEFA administration the results of the above assessment procedures.

I. Assessment of monitoring documentation for the cost control requirements

1. In respect of the monitoring documentation for the cost control requirements, the licensor must assess whether or not the financial information submitted by the licensee corresponds to the information in respect of the same reporting entity/entities submitted for club licensing purposes.
2. In addition, the licensor's assessment must include, as a minimum, the following procedures:
 - a) Check that the amounts in the monitoring documentation for the cost control requirements and those identified by UEFA are consistent with the amounts contained in the annual financial statements and/or interim financial statements, and/or in the supplementary information if applicable, and in the underlying accounting records;
 - b) Check that the monitoring documentation for the cost control requirements has been formally approved by the executive body of the licensee by way of a declaration by the licensee's management that the documents submitted are complete, accurate and in compliance with these regulations.
3. The licensor must confirm to the CFCB and/or the UEFA administration the results of the above assessment procedures.

Annex VII: Core process

This Annex defines the assessment process (hereafter: core process) of the FSF Club Licensing System and the procedural rules which apply to the decision-making process.

The core process describes the minimum requirements that the licensor has to follow to verify the club licensing criteria described in chapter 3 of these regulations and thus control the issuance of the UEFA Licence to a licence applicant.

The core process is described below and is aimed at:

- a) helping FSF in establishing an appropriate and efficient licensing process according to its needs and organisation;
- b) agreeing on the main requirements that the licensor has to comply with to issue the UEFA Licence;
- c) ensuring that the decision on the granting of the UEFA Licence is made by an independent body (the Club Licensing Committee or the Club Licensing Appeals Committee);
- d) ensuring that the club licensing decision-making bodies receive adequate support from the licensing administration;
- e) ensuring that licence applicants understand and respect the process and deadlines that must be followed to be issued the UEFA Licence.

The club licensing decision-making bodies must operate according to the following procedural rules, which apply to the decision-making process:

a) Deadlines

Deadlines are those defined in the core process outlined in Annex VIII and must be respected.

b) Safeguards of the principle of equal treatment

Fundamental procedural rights shall be guaranteed to any party during the licensing process, particularly the right to equal treatment and the right to a fair hearing, which includes, but is not limited to, the right to speak, the right to consult the case file and the right to have a reasoned decision.

c) Representation

Licence applicants shall have the right to representation (legal or otherwise) before the Club Licensing decision-making bodies.

d) The right to be heard

Taking into account (c) above, all licence applicants shall have the right to be heard by the club licensing decision-making bodies. The identities of the people acting on behalf of the licence applicant shall be verified and these people shall be instructed to tell the truth and shall be informed that they shall be sanctioned by the competent FSF body, should they present false information or represent a false or misleading position (whether positively or by omission).

e) Official language

The official language with regard to applications for the UEFA Licence is Faroese.

f) Time limit to appeal and time limit for requests

The time limit to appeal is 7 (seven) days after the date of the Club Licensing Committee meeting at which the decision appealed against was taken unless for any reason it was not made known to the appellant at this time in which case it must be within 7 (seven) days after the date on which the decision was notified in writing to the licence applicant/licensee.

Time limits are triggered when notified, as above, and shall begin on the day following notification. Saturdays, Sundays and public holidays shall be included in the calculation.

g) Form of appeal

The appeal must be submitted in writing.

The statement of the appeal must mention:

- The decision appealed against;
- The grounds for the appeal (facts and/or law);
- New evidence, and
- The pleadings (including applicable procedural complaints).

h) Submission of appeal

The submission of the appeal must be made by Posta special delivery letter. Such letters must be addressed to the General Secretary of the Faroe Islands Football Association, Gundadalur, postbox 3028, FO-110 Tórshavn.

Such letter must be dispatched (confirmation of which should be retained by the appellant should evidence be needed) in accordance with (f) above.

i) Cost of appeal

An appeal deposit fee of DKK 5.000 must be submitted in accordance with (f) and (h) above and made payable to the Faroe Islands Football Association, returnable to the appellant (i.e. the licence applicant which received the refusal from the Club Licensing Committee or the licensee whose UEFA Licence has been withdrawn by the Club Licensing Committee) should the appeal be upheld.

j) Effects of an appeal

An appeal submitted in compliance with (f-i) above shall have no delaying effect.

k) Evidence

Any evidence or facts, which are to be used by the appellant to support its case must be referred to in the statement of appeal and where appropriate, supporting documentation must be provided and lodged in accordance with (f) above.

l) Burden of proof

The licence applicant/licensee and the appellant have the burden of proof.

m) Hearings / Deliberations

Any evidence, facts, documents, contentions or allegations must be made in advance of a hearing and must also be presented in the presence of the competent club licensing decision-making body.

After all parties are satisfied with their presentations the competent club licensing decision-making body shall deliberate in general immediately after the hearing.

n) Decision

The club licensing decision-making bodies shall issue their decisions in writing.

Their decisions must mention:

- i. the name of the chairman and, in principle, also of the members present;
- ii. the name of the licence applicant/licensee to which the decision applies;
- iii. the decision taken;
- iv. a clear statement of the grounds for the licence refusal and sanctions (if applicable);
- v. the appeal procedure (if applicable); and
- vi. the date, place and signature of the chairman.

Steps in the core process

Step 1:

The licensing manager produces and distributes licensing documents, including a copy of these regulations and required application form(s).

Step 2:

The licence applicant completes and returns the application form(s) with the necessary supporting documentation.

Step 3:

The licensing manager checks that the documents returned by the licence applicant are complete for review and that they are returned within the stipulated deadlines.

Decision – Two alternatives: step (A) or step 4

Step (A):

If the applicant does not return the completed application form(s) with the necessary supporting documentation, by the stipulated deadline, then the licensing manager informs the licence applicant of the missing application form(s) and/or documentation and the applicant is sanctioned with a fine of DKK 20.000 payable to FSF. The licence applicant then receives an extension from the licensing manager to submit the missing information within 7 days from the time the applicant has been informed by the licensing manager.

The applicant is entitled to appeal against any issued fine by the FSF, provided that an appeal has been sent to the FSF Disciplinary- and Ethics Committee within 7 days, from the time the applicant has been informed by the licensing manager.

The FSF Disciplinary- and Ethics Committee will decide on the appeal in accordance to the FSF Disciplinary- and Ethics Regulations.

When the licence applicant has either submitted the requested information by the licensing manager or the issued extended deadline to the licence applicant has passed, the core process continues to step 4.

Step 4:

The licensing manager sorts the information received, records it and forwards it to the appointed advisors with responsibilities for that particular area for review (e.g. legal documents will be forwarded to the legal advisor, financial information to the financial advisor, information on coaches to the technical director etc.).

Step 5:

The nominated advisors receive the licence applicant's documents from the licensing manager, review the documents, check the fulfilment of the criteria and then submit a report back to the licensing manager on whether the licence applicant fulfils all criteria or not.

Step 6:

The licensing manager verifies that the reports of the experts are complete and reviews the reports and the opinion of the advisors.

Decision – Two alternatives: step (B) or step 7

Step (B):

If the nominated advisor reports identify areas that require improvement, further information or clarification from the licence applicant, the licensing manager refers this information back to the licence applicant. The licence applicant then has the opportunity to submit updated information to clarify or confirm a position established by its original submissions. The core process continues to step 7.

Step 7:

The licensing manager assesses the licence applicant on the basis of the licence application and reports of the advisors.

Step 8:

The licensing manager prepares the report for consideration of the Club Licensing Committee. This report will contain aspects of the advisor reports and other areas including a recommendation on the UEFA Licence to be granted or refused.

Step 9:

The licensing manager receives the written representation (Article 64) from the licence applicant stating whether or not any events or conditions of major economic importance have occurred; this is to be included in his report to the Club Licensing Committee.

Step 10:

The Club Licensing Committee receives the report of the licensing manager 7 days in advance of the deadline for the licensing decision, reviews it, asks the licensing manager for further explanations and/or new documents from the applicant, if necessary, and makes the decision whether to grant the UEFA Licence or not. The Club Licensing Committee may request a hearing with the licence applicant; this happens in particular in the case of the existence of a major economic event.

Decision – Two alternatives: step (C) or step 11.

Step (C):

After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the applicant, the Club Licensing Committee refuses to grant the UEFA Licence. The refusal details the areas of non-compliance and the licence applicant is given the possibility of lodging an appeal before the Club Licensing Appeal Committee. The core process continues to step (D).

Step (D):

The licence applicant lodges an appeal in accordance with appeal procedures.

The Club Licensing Appeal Committee is notified and the meeting date is set. The core process continues to step (E).

Step (E):

The licensing manager produces a report and delivers it to the Club Licensing Appeal Committee. The report details areas of concern and the reasons for the refusal. The core process continues to step (F).

Step (F):

The Club Licensing Appeal Committee meets and considers the appeal. The core process continues to step (G).

Step (G):

Decision of the Club Licensing Appeal Committee.

Decision – Two alternatives: step (H) or step 11.

Step H:

After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the club, the Club Licensing Appeal Committee refuses to grant the UEFA Licence.

Step 11:

After careful review of the licence applicant's documents, of the report of the licensing manager and the outcome of a possible hearing with the applicant, the decision-making body issues the UEFA Licence. The issuance of the UEFA Licence is subject to the condition that the licence applicant fulfils all criteria defined in chapter 3 of these regulations which are required to obtain the UEFA Licence. The issued UEFA Licence may or may not detail areas for future attention of the licence applicant.

Step 12:

The licensing manager receives the decision of the club licensing decision-making bodies. On the basis of the decisions made by the club licensing decision-making bodies, he prepares the list of licensing decisions. The list of licensing decisions is sent to UEFA by 31 May 2024 at the latest.

Step 13:

After it has been issued the UEFA Licence, up until the end of the licence season, the licensee must promptly notify the licensor in writing of any subsequent event that it is aware of which may have an adverse impact upon the licensee's ability to continue as a going concern until the end of the licence season.

Fulfilment of step 13 shall be assessed by the licensor on an ongoing basis.
